Our Mission

To positively impact the lives of teenagers by providing spiritual, social and academic resources necessary to support their transformation into healthy young adults in our ever changing world

To develop locally and globally conscious citizens whose character will be distinguished by an appreciation for the range of human experience, a commitment to act and lead with integrity, and a self-directed call to lifelong learning and service to their communities

We are committed to meeting the needs of teens by creating a strategic environment and equipping each student with the tools he/she will need to achieve a

healthy outlook. Participants develop, embrace, and enhance ethical leadership, life skills, and experiences through creating an active, diverse climate where all members of the community will flourish.

Teen Outpost will use a holistic approach incorporating our professional experiences and our knowledge of adolescent behavior. Through collaboration among academic colleagues, counseling professionals, church and business leaders, parents, and students, we will provide innovative programs, activities, and services to enhance the quality of student life and create a student centered environment.

Interactive Web Site

The web site for Teen Outpost is not just a marker to say that we are another organization with a space on the Internet. Our web site is an exciting place where teens are continually drawn to find new information. It is a place of inspiration and hope, but also a source of valuable resources. At the core of the web site is a calendar of events taking place throughout our area. These events may include entertainment, social, inspirational, educational and community offerings. The calendar is loaded with pop-ups to highlight special dates and give the user the ability to send the information and/or the link to friends.

Teen Outpost Youth Center

Meeting the needs of today's teenager

Our future facilities, like our web site, will be completely devoted to providing a vast network of services offered to youth.
